Times/Days Available for Private Lessons (incl. after school, evening, weekend):

Please keep in mind that private teachers may have limited openings for private lessons. We will do our best to give your information to the appropriate private teacher as soon as possible, so that the private teacher may contact you to set up lessons. We will also have a list of private teachers in the event parents need to contact a private teacher to schedule lessons. In addition, not all private teachers teach during the school day. Some private teachers teach before and/or after school, depending on their schedule. The private teacher will do the best they can to set up a private lesson time according to your availability, but it is not guaranteed. In some cases, we may have too many students for a private teacher, and will need to search for an additional private teacher for that instrument.

Please turn in this form only if your child wants to take private lessons. This form needs to be returned to the band directors as soon as possible. If you have any concerns about private lessons please contact the band director.
